FAQ

[Pipe Flow Expert 2013 Crack](#)

**Pipe Flow Expert - Example11\_Reverse\_Pipe.pfe**

File Edit Units Fluid Drawing Tools Registration Help

Pan Drawing: Left click and hold down, then move mouse to pan the drawing. Calculate

Fluid: Water (5°C at 0.0bar.g) 80%

**Node: None**  
 Type: Join Point  
 Elevation of Join: 0 m  
 Demands In: 0 m<sup>3</sup>/hour  
 Demands Out: 0 m<sup>3</sup>/hour

**Pipe: None**  
 Name:   
 Length: 0 m  
 Internal Diameter: 0 mm  
 Roughness: 0 mm

**Example: Reverse Pipe**

A water distribution system has been designed to deliver a different set flow rate to each of 4 take-off points. During the drawing of the system Pipe 2 has been added assuming the flow direction is from N2 to N3. Click the Calculate button to solve the system. Pipe Flow Expert may take some time to find a solution, please be patient. Pipe Flow Expert is searching for a calculated solution with all positive flow rates. If a valid solution cannot be found the process is re-started to identify which pipes could be reversed. If you are prompted to reverse the flow direction of Pipe 2, accept this action to solve the system. Pipe Flow Expert can be configured to display the flow rate in each pipe and the pressure at each node, on the drawing. View the results table for all information or use the mouse to hover over a pipe, a node or a component to display information in the hint pane.
